

## **Sky Valley Return of the Salmon Celebration!**

**September 28, 2019**

We host a very unique event every fall that features Sultan's Osprey Park Salmon bearing river system. It's a beautiful place to watch the lifecycle of the Salmon without interfering in nature. The Return of the Salmon Celebration features many educational booths, speakers and performers who will be sharing their knowledge of science, fish biology, native culture & history, arts & stories. Sultan is named for Chief Tseultd.

We are seeking financial support for this event and looking for partners who promote the environmental stewardship and healthy lifestyles mission we are trying to build. We are also working to grow the 5K Salmon Run/1 Mile Walk. The trail systems in this park are the perfect place to host a cross country run that will end at the event. The covered basketball court in the park is going to be the location for the performances, vendors and educational exhibits.

Sultan High School has a fish hatchery program. The students will be explaining their work to people who ride the horse drawn covered wagon to the school from Osprey Park. On their return trip they will be given a small fish to release into the river. Fish biologists will be working with them to take groups of people on walking tours in the park to explain habitat and the lifecycle of the different species of Salmon that spawn in the Sultan & Skykomish Rivers.

**Partners from last year included:** Cabela's, Outdoor Adventures, Snohomish County PUD, Department of Ecology, Sultan Historical Society, Sierra Club, Pilchuck Audubon, WSU Master Gardeners, Wild Washington Rivers, Skykomish Valley Indian Education.

The Sky Valley Chamber would love to partner with you to promote the Return of the Salmon Celebration!

Please let me know if you have any questions or concerns. Also, please let me know the best ways to promote your business if you can think of other ways besides what's listed. We would also encourage you to think about promo items for the runner's gift bags.
